06 REVIEW

Review Wall 1: moulding frames, skirting, casings and layered ceiling details

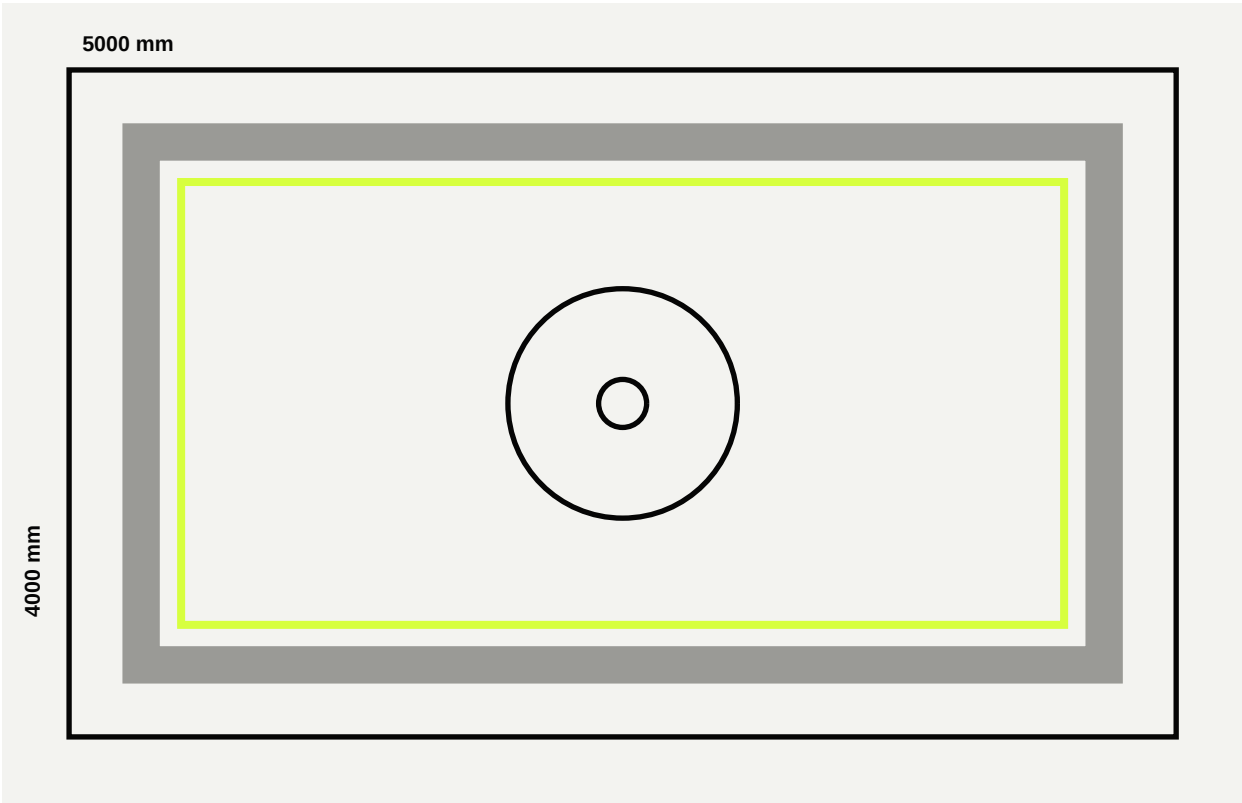

PROJECT REFERENCE	ROOM	CEILING HEIGHT	INDICATIVE TOTAL
CV-2026-001	5000 x 4000 mm	2800 mm	EUR 7,067

Designed as one composition

The profiles are not selected in isolation. Curato View shows how every product relates to the room, adjoining profiles and architectural openings before the specification is created.

Layered ceiling and centred rose

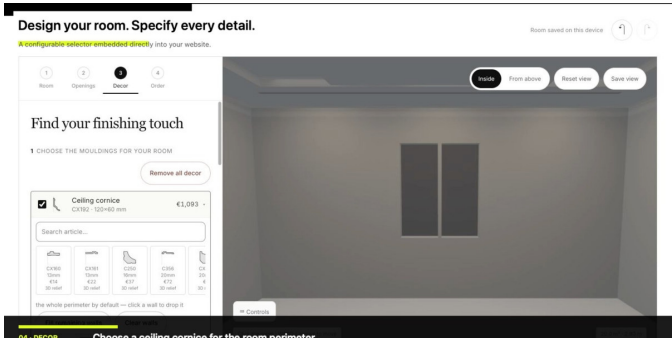

The ceiling combines a perimeter band, a recessed centre, concealed lighting and a centred ceiling rose. Dimensions and quantities are calculated from the room geometry.

PERIMETER BAND 500 mm	CEILING DROP 200 mm	CEILING ROSE R76 - dia. 620 mm
--------------------------	------------------------	-----------------------------------

Selected ceiling profiles

CX192 perimeter cornice | PX120 ceiling contour | R76 ceiling rose | concealed LED profile

Frames, casings and clear spacing

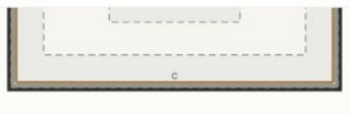

Wall elevations preserve consistent margins around the window, align adjacent frames and identify stock joints before installation.

DOOR	WINDOW A	WINDOW B	CASING
1000 x 2100 mm	1200 x 1400 mm	900 x 1400 mm	DX174 - 60 x 22 mm

Opening finish

The same casing family is applied to the door and both windows, then coordinated with the skirting and wall-frame moulding for one continuous visual language.
